

**You do not find a Happy Life**

**You Make It**

Evan Sullivan

March 2020-August 2020

When I first found out about covid I was excited. I thought we would have two weeks of easy school then spring break. I thought I would get to spend a lot of time with my friend. Then spring break got canceled and I was disappointed but the school day only took me about two hours and my friends and I would go on google meets from random classes, because back then you didn't need a teacher to join the meet. But as the school year started winding down and they made it so a teacher was needed to join a google meet things started getting boring and gloomy. But, I knew that there was light at the end of the tunnel so I was just waiting for summer. When the summer finally came I was so relieved and excited. Things with covid were starting to get better and I could see my friends more. I was doing some camps and was having a lot of fun. I started to hang out with my friends a lot and was feeling good. The beginning of the school year was coming up and I was excited to see some more people.

Walking on sunshine-Katrina and the Waves- I felt really happy and like I was walking on sunshine

Body like a back Road- Sam hunt- This song is about taking things slow and having fun

Wake me up-Avicii-I wanted covid to end so I could see my friends.

Summer- Calvin Harris-I was excited for summer, and then I had a lot of fun.

September 2020-May 2021

When the school year started I was feeling good. I got to stay home 3 days a week and see my friends 2 days. But as the school year went on I started getting bored and it was cold and hard to find things to do. It was cold and there weren't a lot of things to do so it was pretty boring.

Party in the U.S.A.- Miley Cyrus- I was having a lot of fun and Parting

The Lazy Song- Bruno Mars- I didn't feel like doing anything.

June 2021-September 2021

But it started to get warmer and I could do more things, and now things are starting to look up. I am very excited for what's to come. This summer I hope to see my friends a lot and I hope that we don't have to wear masks.

Firework-Katy Perry-I am excited to see what the future holds

Timber-Pitbull, Kesha- I hope to have fun and party
