

Affected by COVID  
By Bradley Chiano

COVID has changed my life.

When I do online school I don't want to do it.

When I can't go with Oma and Papa, I miss driving the buggy and fishing at and in the secret spots in the ponds !

I don't have to get up at 9 o'clock and that makes me happy!

Covid has affected me in many ways!

And COVID has affected me because I can't see Oma and Papa!

Oma is my mom's mom and Papa is my mom's dad!

I miss spending time with them when I am in quarantine!

I miss pulling out trees with the buggy.

I will see Oma and Papa soon.

They will be vaccinated.

I can't wait to knock down the old barn in the backyard.

Soon I will ride the buggy and fish in the ponds

and catch bass, bluegills, crappie and perch in the ponds.

One of the ponds died because of the thick ice this winter and at least 2000 fish died in the pond.

We are trying to bring the pond back to life.

We are catching fish for the pond so we can fish in it again.

We are bringing our world back to life too.
