"The most important thing is that we all have each other." ~ Newt, The Maze Runner

March 2020-august2020

When we were told that we were going to leave school for a few weeks I was excited. I was thinking that it would be nice to be at home for a bit. But then a few weeks turned into a few more weeks which made me confused but then turned into a few months and that really made me scared for my family and friends. Then the school year was over and we didn't get to go back. Which made me stressed and anxious but I didn't think much of it because it was summer so I was confident that summer was going to be great. Me and my best friend had lots of plans for summer but I was not able to see her at all over the summer because her family got covid then was quarantined for pretty much all summer. I was super upset all summer and I missed her like crazy.

Bohemian Rhapsody by Queen- the song itself shows stress in the lyrics and i picked it because i was also very stressed

DayNnite by Kid Cudi- it felt like everyday and every night was just quarantine and covid

Under pressure by Queen- it felt like all the pressure was taking over me during the start of covid/quarantine

September2020-May2021

When September came around I was really excited because I thought that I would be able to see her again but that was not what happened. She was a home learner 3 out of 4 of the quarters in the school year. I talked to her on the phone everyday throughout that time and I would occasionally walk by her house and say hi to her from across the street and that was all I was allowed to see her. But I still was not able to hang out with her or anything which made everything worse. By this time it had been almost a year since I was able to be within 6 feet of her which to me was the actual worst thing ever. I had no idea how long it was going to be until I was able to see her again.

You got a Friend in me by Randy Newman- that my best friend always has me as a friend no matter whatand i always have her
Lean on me by Bill Withers-

June 2021-September 2021

Now that it's the 4th quarter of school I was able to see her again which made me very excited. Even though it's been a long time, me and her are still best friends and that makes me glad. Her family is no longer sick and I can see her more often now which makes me very grateful that her family is okay and so is she. Me and her both have a lot of plans for the summer and for the next few weeks and I'm hoping that this summer will be better than last.

Your my best friend by Queen- it shows my relationship with my best friend and how we always have each other

It's Been a long long time by Harry James - for me the beat of the song shows the ending of bad times and the brining of good
Walkin after midnight by Patsy- The beat of the song is very relaxed and calm and to me it seems like a good song to show how i am more relaxed now about covid
