

I may have more stories to send. Central Florida newspaper and TV outlets covered my illness extensively, I know I have probably missed some but there are lots here. I am having the videos saved independent of the TV station sources so they will not disappear from the original sites. They are here before we have them saved permanently. I will send when ready. The earliest video shows my condition in mid-august 2020. They will show me getting better in subsequent appearances.

Video By Mike Magnoli Published August 25, 2020 Updated August 26, 2020
