

Gunnar Tyrrell

March 2020 - August 2020

When this pandemic started, the only thing I remember was the feeling of some urgency because school was shutting down. Usually when something happens school still continues, now that it was shutting down due to the pandemic being dangerous kinda shocked me. The two weeks off really made up for it though, a couple people didn't want to get together but other than that our two weeks off were very fun. I didn't really attend school for the rest of the year, I wasn't sure when to join the meets because I thought they were at different times. All in all the end of last year was kinda a disaster.

Mining - Lil memer; this song is pretty much describing everything i was doing over the covid break

Minecraft on my mind - reptilelegit, Minecraft king27; I was pretty much just playing minecraft

Yoshi commits tax fraud - Isaak; This is a good song I listened to throughout the beginning of quarantine

September 2020 - May 2021

After the school ended, the real quarantine started. I didn't really do much, I started to drift away from my friends. I kept myself in shape the best I could but it was pretty tough without any sports. That is when motocross comes in, for christmas I got a dirt bike, that entertained me throughout most of the quarantine. During this time some people became open to get together, and that was when things started becoming more normal. This time was very boring, but it started to feel more normal.

Cooler than me - Mike posner; During this time I started trying to look and act cool, and now I'm a lot less weird than I used to be.

Cheesecake - Billy Marchiafava; yeah i was eating a lot of junk during this time.

Reckless - Healy; I was becoming more reckless with my masks when I was with my friends, and they started to seem more annoying than protective.

June 2021 - September 2021

Now Everything is almost coming back to normal. The mask mandate is becoming more loose as people are getting the vaccine. Social distancing has been reduced to 3 feet with a mask as well as masks aren't required outside. I'm excited that things are becoming more normal, I can see friends, family and Now I can do a lot of things I couldn't do before because of the quarantine. Most everything is back to normal now, and I'm happy for this pandemic to continue coming to an end.

Everybody talks - Neon trees; around this time there were rumors, everyone was talking about the mask restrictions, social distancing etc.

Chill calling - fatboibari, dhan; now i'm starting to chill again, 98nm
