

It was March 17,2020 around 2P M. I was in class at McGraw High School. They announced that school would close and go to remote, starting tomorrow ! All staff and faculty will be working! I'm a Teachers Ass't and would be joining all the assistants and aides in the cafeteria in the A M! We would pack and deliver the Breakfasts and Lunches! I really enjoyed seeing where our students lived! It was nice to see a few of them waving from their windows! We did this through our Spring Break til June! I also helped in the afternoon calling the students to check on their progress with their work! June came and I also helped the students take their finals and finished up their work! It was a different end of the year for all of us! Well Fall came and we really thought we would all be back to a normal school setting! No such thing! We came in wearing masks washing hands and Social Distance 6 FT! Some of the kids were on remote ! It's now February of 2021. I'm hoping the vaccine will get us back to a normal 2022 school year! I've stayed healthy through all of this! Diet and vitamins with staying in shape! I also learned Qilong Meditation ! It's kept me staying positive !
