

Kaelyn Page

March 2020 - August 2020

The first few days of remote learning and quarantine were tough and I felt anxious because I had never experienced this before. I couldn't see my friends or my family because of the pandemic. After school had finished we were out for the summer and it was pretty normal for me. I went swimming at my grandma's house, I played outside, Saw my friends while socially distanced. But then three weeks before my birthday my sister and I were in Syracuse staying with our aunt when we got the news that my mom had gotten covid and that we had to quarantine. It was hard because I had to be away from my home and my parents for two weeks and that was really hard. After my mom recovered we went home and had a normal rest of the summer.

See You Again : Wiz Khalifa

Memories : Maroon 5

Life Is A Highway : Rascal Flatts

September 2020 - May 2021

The first day of school came and I was doing home learning and it was a little different. I had done home learning for three marking periods but my parents decided that I should go back to school for the final marking period. I have realized how much better it is to be at school than being at home. You can get more immediate help and you get to be part of the conversation. I didn't realize how much better in person learning was until I experienced home learning.

Cup Song : Anna Kendrick

Don't Stop Believin : Journey

My Wish : Rascal Flatts

June 2021 - September 2021

Now that it is June I feel kind of shocked and surprised that I have made it through this past year and three months. I hope that this whole thing will be over soon and that all the confusion and craziness will be over. I hope that someday in the future mask wearing and social distancing will be over and people will get vaccinated and everything can be normal again. One thing I am nervous about for the future is that there might be another outbreak of covid and people will have to go into quarantine.

Walking On Sunshine : Katrina and the Waves

Here Comes The Sun : The Beatles

Put On A Happy Face : Dick Van Dyke

Why I chose these Songs:

1. Here Comes The Sun → The song reminds me that this whole situation is going to be over soon
2. See You again → The song speaks about hoping to see somebody again and that's how I felt in the beginning
3. Memories →
4. Put on a happy face → This song also reminds me that things are going to get better
5. Cup Song → I thought about traveling a lot during the pandemic
6. Walking on sunshine → Things have gotten better and I have been much happier lately
7. Life is a highway → life is crazy and you never what is going to happen
8. Don't stop Believin → This song reminds me to keep believing when things get tough
9. My wish → My wish is for all of this to be over soon
